1. STATUTES OF INCORPORATION AND NATURE OF OPERATIONS

G.E.T.T. Gold Inc's (formely Nippon Dragon Resources) (hereafter the "Company") mission is to introduce thermal fragmentation technology in the mining industry to enable the commercialization of this technology. In addition, the Company specializes in the exploration of metal in mining sites located in Quebec.

The Company is incorporated under the *Quebec Business Corporations Act*. The address of the Company's registered office and its principal place of business is 500-7055, boulevard Taschereau, Brossard (Quebec) J4Z 1A7. On December 2, 2021, the Company announced the change of the corporation name to "G.E.T.T. Gold Inc. / G.E.T.T. Or inc." and the new symbol on the TSX Venture Exchange id "GETT" (formerly NIP).

The condensed interim financial statements for the three-month period ended December 31, 2021 (including comparatives statements) were approved and authorized for issue by the Board of Directors on March 1, 2022.

2. GOING CONCERN

The accompanying financial statements have been prepared using International Financial Reporting Standards ("IFRS") applicable to a going concern, which contemplates the realization of assets and settlement of liabilities in the normal course of business as they come due.

In assessing whether the going concern assumption is appropriate, management takes into account all available information about the future, which is at least, but not limited to, twelve months from the end of the reporting period. Management is aware in making its assessment of material uncertainties related to events and conditions that lend a significant doubt upon the Company's ability to continue as a going concern and accordingly, the appropriateness of the use of IFRS applicable to a going concern, as described in the following paragraph. These financial statements do not reflect the adjustment to the carrying values of assets and liabilities, expenses and financial position classifications that would be necessary were the going concern assumption not appropriate. These adjustments could be material.

The Company did not generate revenue from the distribution of its thermal fragmentation process during the last quarter. However, the Company concluded a major transaction surrounding the sale of two mining properties which generated positive cash flows. However, these are not sufficient to ensure the Company's profitability. As at December 31, 2021, the Company has accumulated a deficit of \$ 59,193,906 (\$ 71,769,706 as at September 30, 2021) and has a working capital deficiency of \$ 5,993,062 (\$ 10,111,412 as at September 30, 2021).

Management considers that the cash balances are insufficient for the Company to settle its liabilities as well as paying for general administration expenses. Any funding shortfall may be met in a number of ways, including the issuance of new equity instruments, cost reductions and other measures such as the renegotiation of its debts and debentures or the disposal of its mining property. While management has been successful in securing financing in the past, there can be no assurance it will be able to do so in the future, that such sources of funding or initiatives will be available to the Company or that they will be available on terms acceptable to the Company. If management is unable to obtain new funding, the Company may be unable to continue its operations, and amounts realized for assets might be less than amounts reflected in these interim financial statements.

The accompanying notes form an integral part of these interim financial statements.

3. SALE OF MINING PROPERTIES

In October 2021, the Company signed an agreement with Labyrinth Resources Canada Ltd ("Labyrinth") regarding the sale of its Rocmec 1 and Denain mining properties. This transaction was approved by its shareholders at a general meeting on October 28, 2021. As part of this transaction, the Company will receive \$ 5,000,000 from Labyrinth in three installments until November 8, 2022. The first payment of \$ 2,000,000 was collected on November 8, 2021. The remaining two payments of \$ 1,500,000 each will be received in May and November 2022, respectively. The Company will keep the titles on the properties in question until the total amount is cashed.

In addition, to be able to settle its gold loans negotiated in the past, the Company will receive from the buyer 4,500 ounces of gold according to a payment schedule based on the buyer's production activities. In the event of a failure to meet the established schedule, Labyrinth will pay the equivalent amount in dollars to the average price of gold for the last 28 days according to the Bullion Market Association.

The Company also obtained, as part of the transaction, a funding of \$ 1,085,000 to carry out exploration work on the Denain property as planned in the sale of flow-through shares in 2020 since the Company retains title deeds until November 2022. As of December 31, 2021, the Company received an amount of \$ 249,037 to cover the exploration costs incurred.

The agreement with Labyrinth also allowed the Company to fully repay two old restrictive agreements on the properties. The Company was initially able to fully repay a long-term debt secured by a senior mortgage on the Rocmec 1 property through the payment of \$ 580,541 and by converting \$ 100,000 of accrued interest into shares of the Company at a cost of \$ 0.05 per share. The settlement of accrued interest with the issuance of \$ 100,000 shares generated a gain on settlement of debt of \$ 388,611. The units issued consist of one share and one warrant each, allowing the holder to acquire one new share of the Company at a cost of \$ 0.075 per share for a period of 24 months.

The Company was also able to settle a second agreement with Material Japan Inc., which had invested \$ 2,500,000 to explore the Denain and Rocmec 1 properties in 2019 in return for sharing profits with the Company on revenues from certain gold veins identified on the properties. The Corporation terminated this agreement and negotiated the repayment of the invested amount distributed as follows; payment in cash of \$ 25,000, issuance of 10,000,000 shares of the Company at a price of \$0.05 per share for a total amount of \$ 500,000 and issuance of a convertible debenture of \$ 1,975,000 for 36 months, bearing interest at 5% payable quarterly. The holder may convert part or all of it into shares at any time after November 2023 at a price of \$ 0.10 per share.

12. ASSET RETIREMENT OBLIGATION

During the year ended September 30, 2020, in preparation for its work on the Rocmec 1 property, the Company completed a review of the rehabilitation liability in line with the proposed work plan which resulted in the undiscounted amount of \$168,826 to be incurred once exploration and evaluation work had started, which represents management's best estimate of the obligations. The Company has determined the carrying value of this rehabilitation liability as at December 31, 2021 by using a discount rate of 0.53 % (2021 - 0.53%) and an inflation rate of 1.8 % (2021 - 1.8%). The liability accretes to its future value until the obligations are completed. The estimated rehabilitation expenditures may vary based on changes in operations, cost of rehabilitation activities, and legislative or regulatory requirements.

As at September 30, 2021, a payment to the Ministère de l'Énergie et des Ressources naturelles du Québec of \$149,092 have been made to secure a portion of the asset retirement obligations as requested by regulations.

13. EQUITY

Share capital

The share capital of the Company consists only of fully paid common shares.

Authorized

Unlimited number of common shares without par value, voting, participating, dividend as declared by the Board of Directors. Shares are entitled, each in the same way, to payment of dividends and to capital reimbursement and give the right to one vote at the shareholders' meeting.

Issued

The variations in share capital of the Company are detailed as follows:

Three-month period ended December 31, 2021

On November 8, 2021, the Company issued shares and warrants for \$ 100,000. This corresponds to the issuance of 2,000,000 units at a price of \$ 0.05 per unit.

Each unit represents one (1) common share of the Company and one (1) common share purchase warrant. Each warrant entitles the holder to purchase one additional common share of the Company at a price of \$ 0.075 for a period of 24 months following the closing of the offering.

At the same date, the Company also issued shares for \$ 500,000. This corresponds to the issuance of 10,000,000 shares at a price of \$ 0.05 per share.

Year ended September 30, 2021

In December 2020, the Company closed a private placement of units and flow-through units (FT) for \$ 1,924,000 corresponding to the issuance of 9,140,000 hard dollar units (HD) at a price of \$ 0.05 per unit and 29,340,000 FT units at a price of \$ 0.05 per unit. On these dates, the Company's share closed at \$ 0.05 resulting in no flow-through share premium. The transaction costs related to the issuance of these private placements are \$ 49,555 paid through the issuance of warrants issued to brokers and \$ 119,116 in brokerage and stock exchange fees. Directors and officers of the Company participated in the flow-through private placement for a total consideration of \$ 145,900 under the same terms as other investors.

Each HD unit represents one (1) common share of the Company and one (1) common share purchase warrant whereas each FT unit represents one (1) common share of the Company which qualifies as a FT common share and a half (1/2) common share purchase warrant. Each warrant entitles the holder to purchase one additional common share of the Company at a price of \$ 0.075 for a period of 24 months following the closing of the offering.

The transaction costs related to the issuance of private placement of units and FT units are \$ 49,555 paid through the issuance of warrants issued to brokers and \$ 155,538 in brokerage and stock exchange fees.

13. EQUITY (cont'd)

Common share purchase options

The Company adopted a stock option plan (the "Plan") wherein the Board of Directors may from time to time grant options to its directors, administrators, employees and consultants to acquire common shares. The conditions and the exercise price of each option are determined by the Board of Directors.

The Plan states that the maximum number of common shares in the capital of the Company which may be reserved for issuance under the Plan is 10% of the common shares outstanding at the date of the grant. The maximum number of common shares reserved for the granting of options to a single owner may not exceed 5% of the common shares outstanding at the date of the grant and the common shares reserved for consultants or eligible person responsible of investors' relations may not exceed 2% of the common shares outstanding at the date of the grant. Options must be exercised no later than five years after the grant date. The maximum number of common shares reserved for issuance upon the exercise of options granted to insiders cannot exceed 10% of the number of common shares issued and the grant of options to insiders in a 12-month period given, must not exceed 10% of the number of ordinary shares issued. Options granted to eligible persons providing investor relations services are subject to a gradual vesting period of twelve months for a maximum of one quarter (1/4) per quarter.

The exercise price of each option is determined by the Board of Directors and cannot be lower than the market value of the common shares on the grant date.

A summary of changes in the Company's common shares purchase options is as follows:

	December 31, 2021		September 30, 2021	
	Number of options	Weighted average exercise price	Number of options	Weighted average exercise price

In determining fair value, the Company uses observable data based on different levels which are defined as follows:

- First level includes quoted prices (unadjusted) in an active market of identical assets or liabilities;
- Second level includes data that are not based on observable inputs other than quoted prices included in the first level; and
- Third level includes data that are not based on observable market data.

The carrying value of cash, accounts receivable and other receivables, accounts payable, loans and indemnities payable to subscribers are considered to be a reasonable approximation of fair value because of the short-term maturity of these instruments. (Level 1)

Investment in a mining company is recorded at fair value at the end of each reporting period. (Level 1)

The carrying value of debts and debentures is considered to be a reasonable approximation of fair value as they are all
